

School Governor Champion

School Governor Champion Charter

are working together to support our local schools and their pupils by championing the role of school governor. We recognise that young people currently at school are our future employees and that investing in their education now will have significant benefits for employers in the future. We also recognise that serving as a school governor has a positive impact on staff development and makes a visible contribution to the local community.

We aim to:

- 1** Become a supporter of school governor volunteering. We will do this by encouraging and supporting staff to be governors and to register their interest with Inspiring Governance.
- 2** Promote school governance as a volunteering opportunity in the workplace, either on a noticeboard, on our intranet or through internal communications to staff.
- 3** Nominate a named lead as an internal school governor champion to liaise with our named contact at Inspiring Governance.
- 4** Provide the opportunity for Inspiring Governance to visit our organisation to promote the role of school governor.
- 5** Consider how we can support staff who govern – this could be ensuring staff have time to govern and supporting an internal governor network.
